Allowable Subject Matter

1. Claims 1- 21 are allowed.

2. The following is an examiner's statement of reasons for allowance:

Many references in the art disclose the similar torque distribution control apparatus for four wheel vehicle, such as that found in Nakayama [U.S. Pat. 5,265,020] and Yoshimura [U.S. Pat. 4,650,212]. But no prior art reference utilizes the method for determining wheel lift of a wheel of an automotive vehicle comprising the steps of:

applying a change of torque to the wheel;

measuring a change in a wheel condition since initiating the step of applying a change of torque; and

indicating wheel lift of the change in the wheel is greater than a predetermined value.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
